Subject: Logistics Community of Practice Professional Development Workshop

I want to alert you all and invite your support of the upcoming Logistics CoP Professional Development Workshop scheduled for 18-22 Oct 04 in Orlando, FL. This is a significant and vital opportunity to improve and transform our logistics community's capabilities in supporting USACE 2012 transformation.

- We will focus on building essential relationships with stakeholders, customers, co-producers learning from each other, sharing information and knowledge, and working toward standard process approaches.
- We will have participation from USACE, Federal Agency partners, commercial firms, Army Logistics organizations, and academic institutions.
- The Chief of Engineers has prepared a special video presentation for us that will share his vision, goals, and challenges for us.
- We will have breakout sessions that will focus on developing our sub Communities of Practice including specific outcomes that will improve processes and performance across the Corps.
- And we will take time to assess our experiences in supporting one of the largest Hurricane Response Efforts in our history seeking to capture lessons that we must learn in order to improve our capabilities for future events.

We are seeking registration to be completed by 8 Oct 04. There is still space at the hotel. Please refer to the attached memorandum and the website below for additional information.
